3 November 1978

MEMORANDUM FOR THE RECORD

SUBJECT: Conversation with Dr. William Perry, Under SecDef for Research & Engineering, 3 November 1978

On 3 November, I had a discussion with Bill Perry regarding
s status with respect to the Technology Trends Colloquium.
Bill said that he would be happy to ask Dr. Garber to leave adequate
time to carry on the continuing work of the colloquium. He said if it
got to the point that this created a problem or interference with
other responsibilities because the workload for the colloquium increased,
we would have to look at whether could be brought back at full-time
or somebody else could be brought in to carry or share the load. I told
him we would be happy to provide partial financial compensation under
these circumstances. He said he didn't think it would be necessary.
